ARLP Executive Leadership Masterclass Series: *Focus and Results*

Leaders of both large and small teams, are often challenged to stay focused on the most important projects and results.

ARLP's Leadership Masterclass is designed to empower leaders and their teams to achieve those results and outcomes that matter most to those who depend on them.

ARLP will work alongside up to 5 Masterclass Executives to identify and achieve their most important results. With ARLP working alongside, each participating Executive will develop and execute a plan of action to attain their most important outcomes while also facilitating a **Community of Practice** with other practitioners. The Masterclass Executives, via the Community of Practice, will offer and receive unique insight in the process that will support their efforts.

As a result of their focused leadership, each Masterclass Executive will have achieved their most important project outcomes and set in motion the essential systems that will continue to serve and support their momentum.

Over the course of three months:

1. 1:1 Personalized Strategic Advisory and Coaching with ARLP's CEO Dr. Al Rogers
2. Inclusion and engagement with the Executive Masterclass members
3. Access to ARLP Leadership tools and resources

Submit your application for membership in ARLP's next Leadership Masterclass which begins in February, 2026:
